Objective: To be associated with a progressive organisation that allows me to utilise my knowledge, skills and experience to meet the strategic goal of the organisation. Looking forward to involve myself as a part of the team that dynamically works towards for the growth and learning new concepts.

Skill Set: C#, .NET8, MVC5, Angular15, .Net Framework, ASP.Net, EF, LINQ, WCF, VB6 and **SQL Server RESTful Web API**, JavaScript, CSS, HTML
DevOps, Git, Github Copilot, Source Tree, Team Foundation Server (TFS) and Visual Source Safe

Experience: **Nov 2024 – till date | Technical Team Lead at Version 1** (on payroll of Ancile Digital), **Bangalore**

- Leading a team of five developers in the end-to-end development of robust enterprise web applications using technologies like .NET, MVC5, Angular, SQL Server and RESTful APIs.
- Conducts regular code reviews, enforced coding standards and ensured best practices
- Provided technical guidance, mentoring, and support to junior team members
- Optimize database queries and application logic to improve system response time
- Ensure delivery of applications with a strong focus on maintainability and documentation.

June 2018 – Nov 2024 | Module Lead at Trigent Software Ltd., Bangalore, Karnataka (India)

- Worked as an individual contributor and Led and mentored a team of three developers
- Worked with many legacy VB6 applications and ensured their smooth porting to MVC
- Implemented best practices and ensured quality code from developers while code review
- Optimized SQL queries to reduce response time and improve the application performance

October 2010 – May 2018 | IT Consultant (Freelance)

- 2011 – 2013 – worked for [Micro Leasing and Funding Limited](#) to develop its ERP application
- 2013 – 2016 – worked for [TSD College](#) and developed Campus Automation System
- 2016 – 2018 – worked for [Odiware Technologies](#) to develop Online Exam RESTful Web API
(Note: I have furnished the details of the projects in the next page / annexure / PROJECTS)

May 2006 – September 2010 | Module Lead at CMA CGM Systems, Dubai (UAE)

- Was maintaining the HARP (Hazardous Cargo Approval and Request Proposal) module of the Line and Agents Real Time Application (LARA) using Visual Basic 6.0 and Oracle
- Migrated the above application from Visual Basic 6.0 to Visual Basic .NET

Aug 1999 – April 2006 | Faculty

Was working a faculty at NICE (National Institute of Computer Education), Bolangir, Odisha and was teaching Computer Fundamentals, FoxPro and Visual Basic. Later I was also involved in developing software for Medicine Distributors using FoxPro 2.6 and Visual Basic 6

Education: 1990- 1993 | **Bachelor of Science (Hons)**

Completed B.Sc. degree with first class and honors from Berhampur University, Ganjam, Odisha
Chemistry, Zoology, Botany, Environment Science, English and Odia were the subjects

1994 – 1996 | **Advance Diploma in Software Technology and System Management**

Completed it from National Institute of Information Technology (NIIT), Bhubaneswar - 7, Odisha

1999 | **Certificate in Computing**

Completed this course from IGNOU (Indira Gandhi National Open University), Bhubaneswar

2000 | **Certificate in Oracle and Visual Basic**

Completed this course on Visual Basic 6 and Oracle 8 from SSI Limited, Bhubaneswar

SOME OF THE PROJECTS

SL#	Duration	Company	Project Name with Brief Description	Technologies	Role and Responsibilities
1	JAN 2025 - Till date	Version 1	PMS (Paper Management System) – It is a production workflow and supply chain software that fullfills the day to day need of DS Smith to manage the order of their customer, raw material sourcing, production scheduling to shipping	.NET Framwork 4.8 C# / .Net Core MCV5, EF AngularJS Azure DevOps	Leading a team of five (5) developers, conducts code review, mentors feshers, optimizes sql quries and Ensure delivery of high perfomancing applications
2	DEC 2024 to JUNE 2025	Version 1	PSC (Paper supply constraint) at DS Smith is a project developed to manage and balancing the availability, quality, and cost of raw fibre (paper pulp), which directly affects their ability to produce packaging materials efficiently.	.Net 4.8 Angular JS MCV5 LINQ Entity Framework SQL Server	Leading a team of four (4) developers, conducts code review, mentors feshers, optimizes sql quries and Ensure delivery of high perfomancing applications
3	MAR 2023 to AUG 2024 (1.5 YEARS)	Trigent Software Limited	Jordi Labs: application for scientific analysis, research and experiments. It is being used for identifying and quantifying potential contaminants that can migrate from other sources	.Net 4.6, C#, SQL Server, RESTful API, LINQ, Bitbucket	Worked as an Individual contributor. Interact with client to identify requirements and implement solutions
4	JUNE 2018 To SEP 2020 (2.3 YEARS)	-do-	NJLS (New Jersey Lawyers Service): A bundle of two web applications and RESTful web services tailored to cater the needs of legal professionals in USA. Also, it offers courier and electronic filing of legal documents to courts, clients, and other parties	.NET Core 2.1 .Net Framework ASP.Net, C# RESTful Web API SQL Server 2019 LINQ, Git Telerik	Worked as an Individual contributor. Get the requirements from client and deliver the solutions in due time
5	AUG 2016 - MAY 2018 (1.8 YEARS)	Odiware	<u>Online Exam RESTful Web API</u> A RESTful Web API developed for catering the need of educational institutes online examination. The same service also used for campus management system	.NET Core 1.0 EF, LINQ SQL Server Ocelot (API Gateway)	Planned (created the Scope, work break down structure) and developed the web service while leading two developers and a tester
6	JAN 2013 - JUL 2016 (3.4 YEARS)	Tentulia Sasana Devasthan College	ICAS (Integrated College Automation System): An Education ERP Software. Basically, a bundle of applications (web, windows and web services) for catering all the day to day needs of the college	.Net Framework C#, ASP.Net SQL Server TFS Angular 15	Architected the and developed it while leading four developers and a tester. Finance, Student, Staff, Library are the key modules
7	MAR 2011 - DEC 2012 (1.9 YEARS)	Micro Leasing and Funding	Micro ERP: An ERP software for the in house use in the more than one hundred branches in Odisha (FINANCE and FILED FORCE are two key modules)	.Net Framework ASP.Net, C#, SQL Server, TFS HTML, CSS, JS	Architected the application and developed it while leading eight developers and two testers
8	MAY 2006 - SEP 2010 (4.4 YEARS)	CMA CGM Systems	HARP: A window application to screen the cargo booking information against a comprehensive keyword library as specified by standards in (IMDG)	Visual Basic 6 .Net Framework VB.Net Oracle	I was leading the module and delivering the application wile liaison with head office at France
